Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. “ Fascinating...crisp, evocative writing.... The tapestry here is rich and varied. ” —CLEVELAND PLAIN DEALER Late spring in the year of our Lord 1370, and Owen Archer is anxious to leave Wales for home. His mission for the Duke of Lancaster complete, he attempts to arrange safe passage on a ship sailing for England, but the hanging of a stonemason interrupts his plans. On the surface it appears the young man was driven to suicide by a broken heart, but to Owen the signs all point to murder. As his investigation stretches on, however, Owen finds himself drawn into the influence of the leader of a Welsh rebellion whose manifesto speaks to his heart, and a choice is offered to him: join or die. Meanwhile, at home in York, Owen ’ s wife Lucie is troubled by rumors that her husband ’ s long absence is permanent, as well as threats by a customer who claims she was poisoned by a physic from the Wilton apothecary. Meanwhile, Lucie is tempted by the attentions of a friend ’ s steward, even as she uncovers a shattering betrayal in her own household.

Museum of Singapore in the context of museological trends and global market. Specifically, it lays the foundation for understanding and analysing the two aspects of this immersive technology: first, how VR applications in museums have fostered the development of partnerships between art and tech worlds which can be understood as a new collaborative ecosystem, and second, how this new type of advanced technological exhibitions can empower to capitalise on these partnership opportunities while achieving museum 's mission. Importantly, this new form of cooperation has an economic component which ensures value creation, in this case, for VR projects, whether in-house, online or in different hosting venues. The attempt is to integrate the findings to demonstrate how VR technology can become a new channel to achieve museum 's objectives while remaining relevant and sustainable, and suggest a list of important factors to consider for an effective use of VR in museum practice. The present research aims at addressing the gap in the current academic literature by providing an analysis of VR in museum practices, in order to guide future designs of museum VR exhibitions. The thesis provides a solid foundation for further studies of this new collaborative ecosystem between the cultural and technological worlds.

The World Is No Longer Flat Culo is an art, fashion, and pop-culture movement that defies all national, cultural, and linguistic boundaries. No matter if you were raised to call it derriere, tush, rear end, or booty, culo is the new epicenter of female sexuality, desire, and empowerment. Over the past decade, some of the world 's most celebrated women have subtly shifted our long-held ideals of physical perfection toward a shape that is more authentic and bold. While culo has long been venerated in certain cultures, it is now becoming the object of worldwide mainstream admiration. This emerging global love affair with culo is as much about the blending of African, Latin, European, and Asian beauty as it is about celebrating the female form 's most coveted asset. Culo by Mazzucco pays tribute to this phenomenon through a singular artistic
