By shortening the overall length of the truck cab the trailer size could be increased while staying within the overall length limit dictated by each state. All the major truck manufacturers are featured along with the many models offered throughout the decades into the 1970s, as well as a brief look at the COE models offered through the 1980s to today.

In 1992 the World Bank launched the Africa's Management in the 1990s research program, a comprehensive study of the issues of institutional capacity building in Sub-Saharan Africa and its effects on economic and social development. This report focuses on the program and on how to implement its main message: institutions must be both rooted in the local context and culture and open to outside challenges and influences. Chapters focus on the institutional aspects of capacity building, best practices in public administration, indigenous private sector development, and a framework for reconciliation between institutions.

Fast-paced and intricately-plotted, with the unflinching attention to forensic detail that his readers have come to expect, Scent of Evil is the third of Archer Mayor 's critically-acclaimed Joe Gunther mysteries.
