In the tradition of his own bestselling masterpieces *The Story of Civilization* and *The Lessons of History*, Pulitzer Prize–winning historian Will Durant traces the lives and ideas of those who have helped to define civilization, from its dawn to the beginning of the modern world. Heroes of History is a book of life-enhancing wisdom and optimism, complete with Durant's wit, knowledge, and unique ability to explain events and ideas in simple, exciting terms. Heroes of History carries on this tradition of making scholarship and philosophy understandable to the general reader, and making them good reading, as well. At the dawn of a new millennium and the beginning of a new century, nothing could be more appropriate than this brilliant book that examines the meaning of human civilization and history and draws from the experience of the past the lessons we need to know to put the future into context and live in confidence, rather than fear and ignorance.

At last Orville was free, soaring above the sand dunes, wind in his face. Lying in the glider's wing, he moved his hips in the control cradle and the craft began to turn as planned. But then something went wrong. The glider wanted to go into a spin, and as Orville struggled with the controls, it came to a standstill in midair. When Orville Wright and his brother Wilbur set out to solve the problem of flight, they recognized that success would come with careful observation, perseverance, and ingenuity. From experiments in their Dayton, Ohio, bicycle shop to test flights over the beaches of Kitty Hawk, North Carolina, the amateur aviation enthusiasts risked their lives and worked tirelessly to solve the problems that had stumped the world's best scientists. Together the Wright brothers designed and constructed a power-driven airplane and, in it, made the world's first controlled, sustained flights. As a result, the skies were opened and the era of aviation began (1871-1948).
