The best-selling Honda ever, the long-running Honda Mini Trail, was available in a huge range of models, even within each model year. The Honda Mini Trail Enthusiast's Guide covers all Honda Mini Trails and Z50 bikes produced between 1968 and 1999. Author Jeremy Polson begins with a brief introduction of the models that led up to the Mini Trail, and then jumps into a thorough analysis of the many models and iterations that Honda has offered through the years. Despite the worldwide popularity of Honda's best-selling model, no other Mini Trail book had been published, and the accuracy of information found on the Internet is suspect at best. For Z50 collectors and enthusiasts, this book presents facts and figures found nowhere else. In addition to the hard facts regarding each model of each year, this book is filled with many rare photos that track the evolution of the Mini Trail, and unravel its mystery.

10 pages, 51 black & white illustrations, size 5.5 x 8.5 inches. Originally published under the title The Book of the Honda 50 by John Thorpe, this book is one of The Motorcyclist's Library series published in the USA by Floyd Clymer by arrangement with the original publishers Pitman Ltd. of London, England. It includes complete technical data, service and maintenance information and detailed instructions for the repair and overhaul of the major mechanical and electrical components for the entire Honda 50cc series of mopeds and mini bikes constructed from 1958 through the 1970 models. There is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete renovation. Applicable to the C100, C102, C110, C114, C50, P50, PC50, PF50 OHV & PF50, and all 50cc Mini Trail and Monkey Bike variants. This publication has been Out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market and we are pleased to be able to offer this reproduction as a service to all Honda enthusiasts worldwide.
