The Economies of European  
Union Small Member and  
Candidate States deals with  
the small states and  
candidate states of the EU,  
with a focus on their  
economic structure and  
performance, and the impact

of EU membership (past,  
actual and potential) on the  
economy. The small states to  
be covered are those with a  
population of 3 million or  
less, namely: Cyprus,  
Estonia, Iceland, Latvia,  
Lithuania, Luxembourg,

Malta, Macedonia, Montenegro  
and Slovenia. This title  
adds to the literature on  
the EU, on regional  
integration generally and on  
small states. It delves into  
the special constraints of  
small economic size, and

# Online Library Ministry Of Finance And Economic

Development And Ministry  
examines why and how the  
small states of Europe  
manage to compete, albeit  
not without difficulty, with  
the larger states in the  
block, where free trade  
prevails. The book answers  
the following research

questions: What are the special economic development constraints faced by the small states of the EU? What policy options have been used by, or are available to, these small states to address these constraints?

# Online Library Ministry Of Finance And Economic

Development And Ministry  
How can the economic  
resilience and  
competitiveness of these  
states be enhanced? Has EU  
membership been mostly

The book is aimed primarily for students of EU affairs and of regional integration in general. It will also be useful for students of subjects relating to small states. It may also appeal

to policy makers of small  
states, and to officials of  
international and regional  
organisations that have a  
constituency that includes  
small states.

Building and operating

successful public institutions is a perennial and long-term challenge for governments, which is compounded by the volatile conditions found in fragile settings. Yet some government agencies do

manage to take root and  
achieve success in  
delivering results earning  
legitimacy and forging  
resilience in otherwise  
challenging contexts.

Drawing on mixed-method  
empirical research carried

# Online Library Ministry Of Finance And Economic

Development And Ministry  
out on nine public agencies  
in Lao PDR, Sierra Leone,  
The Gambia, and Timor Leste,  
this volume identifies the  
shared causal mechanisms  
underpinning institutional  
success in fragile states by  
examining the inner workings

of these institutions, along  
with the external  
operational environment and  
sociopolitical context in  
which they exist. Successful  
institutions share and  
deploy a common repertoire  
of internal and external

operational strategies. In addition they connect this micro-institutional repertoire to the macro-sociopolitical context along three discernible pathways to institutional success. Institutional development is

a heavily contextual,  
dynamic, and non-linear  
process but certain  
actionable lessons emerge  
for policy-makers and  
development partners.
