The Great Book of BASE

As a BASE jumper—and still something of a beginner at that—I've found this book to be markedly useful and engrossing. I would highly recommend it to anyone into BASE or considering BASE. Well-written and full of a comprehensive, encompassing, view of our sport, it contains a wealth of technical information but also a lot of personal insight.

Discusses all aspects of BASE jumping including its history, culture, technique, equipment, and important people in the extreme sport.

"It's not surprising that sooner or later I'd dive down the proverbial rabbit hole into the world of vintage bass guitars."—Geddy Lee From Rush frontman Geddy Lee's personal collection of vintage electric bass guitars, dating from the 1950s to the 1980s, comes the definitive volume on the subject. Geddy's love of the bass has been nurtured over a lifetime spent in the limelight as one of the world's premier rock bassists. For the past seven years, he's dedicated himself to studying the history of the instrument that's been so essential to his career, collecting hundreds of basses from around the globe. Written with arts journalist Daniel Richler, gorgeously photographed in breathtaking detail by Richard Sibbald, and with insight from Geddy ' s trusted bass tech and curator, John "Skully" McIntosh, Geddy Lee ' s Big Beautiful Book of Bass profiles over 250 classic basses from Geddy ' s extensive collection. Representing every tone in the bass palette, every nuance of the rock and roll genre as well as blues, jazz, pop, and country, this one-of-a-kind collection features so-called "beauty queens"—pristine instruments never lifted from their cases—as well as "road warriors"—well-worn, sweat-soaked basses that proudly show their age and use. Complete with personal commentary from Geddy that showcases his knowledge both as a musician and an aficionado, this luxuriously produced volume is a revelatory look at the heavy hitters in the world of bass—Fender, Gibson/Epiphone, Rickenbacker, Hö fner, Ampeg—and lesser known but influential global luthiers such as Antonio Wandr Pioli, Dan Armstrong, and Tony Zemaitis. The book also features interviews with John Paul Jones (Led Zeppelin); Adam Clayton (U2); Robert Trujillo (Metallica); Jeff Tweedy (Wilco); Bill Wyman (The Rolling Stones); Les Claypool (Primus); Bob Daisley (Rainbow); Fender expert and owner of the legendary Gibson Explorer, Bass Ken Collins; veteran guitar tech for The Who, Alan Rogan; plus comments from many other great players across three decades of rock and roll. Written in Geddy's singular voice, this book reveals the stories, songs, and history behind the instruments of his inimitable collection. Complete with an index and a graphically designed timeline of the history of the bass, as well as an up-close look at Geddy's basses on Rush's final R40 Tour, his stage and recording gear from 1968 to 2017, and forewords by author and respected vintage expert, Terry Foster, and Rush band member, Alex Lifeson, Geddy Lee's Big Beautiful Book of Bass is the ultimate compendium for the consummate collector, musician, Rush fan, and anyone who loves the bass guitar.

EVERY GAME HAS RULES. HE'S ABOUT TO BREAK THEM . . . Since becoming a major league baseball player, I've learned a few hard lessons. Like never give out your home address on social media (sorry, Mom). Never shoot your mouth off without thinking . . . and never, ever let your personal life interfere with your game. But then I saw her - sitting alone behind

the enemy dugout, watching me - and I just had to meet this girl. Now I know that Daisy Robinson has her secrets, but there's something about her that drives me crazy. Maybe it's her innocence, her absolutely amazing knowledge of baseball, or just the fact that she is so unbelievably beautiful. I have to take it slow. Prove to her that the rumors about me are just that - rumors. Daisy might be my ultimate lifetime win. . . if I don't get hit by the curveball that's coming my way.

Everything you ever wanted to know about first base, but were too afraid to ask

From Italy to the Indian Ocean, from Japan to Honduras, a far-reaching examination of the perils of American military bases overseas American military bases encircle the globe. More than two decades after the end of the Cold War, the U.S. still stations its troops at nearly a thousand locations in foreign lands. These bases are usually taken for granted or overlooked entirely, a little-noticed part of the Pentagon's vast operations. But in an eye-opening account, *Base Nation* shows that the worldwide network of bases brings with it a panoply of ills--and actually makes the nation less safe in the long run. As David Vine demonstrates, the overseas bases raise geopolitical tensions and provoke widespread antipathy towards the United States. They also undermine American democratic ideals, pushing the U.S. into partnerships with dictators and perpetuating a system of second-class citizenship in territories like Guam. They breed sexual violence, destroy the environment, and damage local economies. And their financial cost is staggering: though the Pentagon underplays the numbers, Vine's accounting proves that the bill approaches \$100 billion per year. For many decades, the need for overseas bases has been a quasi-religious dictum of U.S. foreign policy. But in recent years, a bipartisan coalition has finally started to question this conventional wisdom. With the U.S. withdrawing from Afghanistan and ending thirteen years of war, there is no better time to re-examine the tenets of our military strategy. *Base Nation* is an essential contribution to that debate.

The first official baseball rule book from 1867, Haney's covers all aspects of pitching, batting, and fielding and contains full instructions for umpires and scorers.

A family, separated by duty and distance, waits for a loved one to return home in this lyrical picture book celebrating the bonds of a Cherokee family and the bravery of history-making women pilots. At the mountain's base sits a cabin under an old hickory tree. And in that cabin lives a family -- loving, weaving, cooking, and singing. The strength in their song sustains them through trials on the ground and in the sky, as they wait for their loved one, a pilot, to return from war. With an author's note that pays homage to the true history of Native American U.S. service members like WWII pilot Ola Mildred "Millie" Rexroat, this is a story that reveals the roots that ground us, the dreams that help us soar, and the people and traditions that hold us up.

A brand-new edition of the classic book of Serpentology brought to you by the brilliant Graeme Base Was Bjorn of Bromme one of the greatest explorers of the Viking Age or just a simple-minded, lice-infested Barbarian with a passion for beach volleyball? Could Soong Mei Ying really have discovered every Asiatic Dragon known to Serpentology, or was she just a thirteenth-century teenage who wanted to travel and meet people? Did Dr E. F. Liebermann perish after discovering the Common Green Draak, also known as the 'Awful Gurgler', or was he suffering from a severe bout of jungle madness? The answers to these questions and more will not be found within the pages of this book - but a lot of great big Dragons will . . . Visit graemebase.com

Eight-year-old Sammy comes to realize he must improve his skills and sportsmanship as a Little League baseball player before he can hope to achieve his dream of playing for the major leagues.

The members of J Squadron are back at it again, fighting the First Order, and trying desperately to be as cool as Poe Dameron. Having escaped the First Order, this ragtag group is on the run--trying to get back to the Resistance before it's too late--in the third book of this hilarious Star Wars-meets- *The Goonies* original fiction series.
