Agathokles of Syracuse ruled large areas of Sicily and southern Italy between 317 and 289 BC. In this book, Christopher de Lisle argues that Agathokles was an important player in the Mediterranean world at a key moment in its history. Agathokles' career has important implications for our definition of the Hellenistic world and its relationship to both the western Mediterranean and earlier Greek history. However, he has tended not to feature in studies of the Hellenistic world or of ancient Sicily. In ancient discourse about him, in the coins he issued, in his interactions with the world around him, and in the way he ruled, Agathokles is simultaneously heir to a long tradition and actively engaged in his contemporary world. The failure to place Agathokles in both of these contexts up till now has contributed to the development of an excessively deep separation between the western and eastern Mediterranean and between the Classical and Hellenistic periods. This work - the first book-length study of Agathokles in English in over a century - places him in the context of both the earlier history of Sicily, and the developments in the eastern Mediterranean that mark the start of the Hellenistic era. The volume includes a narrative of his career, studies of his coinage and his representation in literary sources, and a series of explorations of important themes and regions.

One of the Forbes 400 wealthiest Americans, former CEO Clayton tells his story, from being born to poor cotton farmers in west Tennessee to building Clayton Homes into one of the top distributors and loaners in the mobile home industry.

In this remarkable book, Carl Verheyen teaches his philosophy and techniques for improvising. Rather than hashing out scales, Carl teaches how to play lines with strong melodic content. By approaching melodies through intervals and chord qualities, infinite lines can be generated. Carl stresses the importance of collecting lines that can be used in improvised settings. These lines and examples will provide outstanding material for any guitarist yearning for melodic ideas and inspiration. Presented in standard notation and tab.

In the summer of 1976, ten-year-old Eii Book's excitement over Bicentennial celebrations is tempered by his father's flashbacks to the Vietnam War and other family problems, as well as concern about his tough but troubled best friend, Edie.

At a rather salacious masquerade party where VIPs and celebrities alike have gathered, businessman Kamiya encounters a magic wand he can't forget! Hoping to once again submit himself to its magical abilities, Kamiya recruits the help of his ever-present stone-faced secretary, Tachibana, to find the mystery man who possesses it. Just who is the man behind the mask with the wand from beyond, and does Kamiya have a chance of finding him? -- VIZ Media

This series of comprehensive manuals gives the home mechanic an in-depth look at specific areas of auto repair.
